Gently pull the flare away and undo the remaining bolts on both sides of the bumper. Then push the clips back on either side to completely remove the bumper from the vehicle.

Remove the 2 bolts that secure the washer bottle and remove the air control unit by pushing in an upwards motion.

Remove the 8 bolts from the inner bumper reinforcement and take it off the chassis.

Remove the Air temperature sensor by unscrewing the 2 screws under the engine bay, reposition this.

Use assistance to lift the winch mount containing the winch into place so it may be bolted to the chassis.

If the chassis has 8mm captive nuts drill out and replace with M10 plates supplied

When mount is in position measure and scribe the grill so it may be trimmed precisely to the fairlead.

On the nearside two outer M10 bolts fit the retaining plate for the washer bottle.

on the two offside outer bolts fit the plate for the winch electrics and air control unit.

Tighten the 8 bolts when mount is in correct position.

Replace winch electrics (refer to your prior notes or winch user manual) You may need extended cables.

Installation for D4 and RRS are fundamentally the same as above.
